

Installation

Welcome to eSobi Mobile for Windows Mobile!

In order to assist you using eSobi Mobile, we've created a simple page to guide you through.

If download through Microsoft Tag Reader:

1. If you do not have Tag Reader on your mobile device, please download at <http://gettag.mobi>.
2. Start the Tag Reader application when installation completed.
3. Go to eSobi official website – Download, take the Tag photo with your mobile device.
4. Choose your storage and eSobi Mobile will now begin to download the eSobiSetup-SWM.CAB and install.

If download to your PC:

1. Copy the eSobiSetup-SWM.CAB file on your PC and paste it to your storage folder (either your SD card or phone).
2. Open File Manager on your phone and go to the storage folder.
3. Click on the eSobiSetup-SWM.CAB to install.

*If download from Marketplace:

1. Find eSobi Mobile on the Marketplace.
2. Sign in with your Live ID.
3. Click on the install button to begin.

***eSobi Mobile will soon to be released on the Windows Marketplace.**
